INDEX

Volume XXXV, Numbers 1-6

A

Addelston, H. K., 129
Administrative Structure—ASDC, 78, 211
Album, M. M., 4, 85, 153, 161, 272, 356
Alloy, J., 161
Annual Meeting, 1968, 127, 215, 311, 393

B

Bawden, J. W., 36
Beke, A. L., 33
Bennett, I. C., 186
Biological Timing and the Dento-Facial Complex, 175-185, 328-341, 377-381
Bodnarchuk, A., 107
Boyers, C. L., 153
Brown, R. V., 385

C

Can Pedodontics and Orthodontics Be Combined in Practice?, 241-251
Caries Prevalence in Children of Low Income Families, 305-308
Cartwright, H. V., 36
Castaldi, C. R., 107
Cathey, G. M., 47
Child Patient and General Anesthesia in the Hospital, 198-207
Children's Attitudes Toward Dentists and Dentistry, 129-137
Clinical Findings on the Effectiveness of Stannous Fluoride and Acid Phosphate Fluoride as Caries Reducing Agents in Children, 36-40
Comparison and Evaluation of Two Formocresol Pulpotomy Technics Utilizing "Buckley's" Formocresol, 22-30
Comparison of the Effects of Zinc-Oxide Eugenol and Calcium Hydroxide on Carious Dentin in Human Primary Molars, 451-456
Comparative Histological Evaluation of Three Calcium Hydroxide Preparations on the Human Primary Dental Pulp, 61-76
Constitution and By-Laws Changes, 346
Coughlin, J. W., 99
Courage Is the Name of the Game, 438
Crossbite—Mandibular Malposition, 221-223

D

Davis, W. Bailey, 491
Davis, W. R., 342
Dental Procedures in the Hospital Operating Room, Placement of Equipment and the Efficient Use of Dental Auxiliaries, 342-344
Detection of Congenital Dental Anomalies: How Many Films?, 107-114
Distinguished Service Award, 41
Dogon, L., 322
Dow, P. R., 47

E

Effect of Certain Variables on the Properties of Silicate Cement, 115-121
Effect of Trauma on Normal Tooth Development—Report of Two Cases, 291-295
Ehrenreich, D. W., 451
Etiology and Prevalence of Ectopic Eruption of the Maxillary First Permanent Molar, 138-146
Evans, J. A., 91
Exfoliation of a Permanent Tooth Germ—A Case Report, 487-490

F

Fiber Reinforcement of Dental Amalgam, 460-464
Frankl, S. N., 61

H

Hall, S. R., 291
Hazlett, D. L., 419
Higley, L. B., 221
Hirsh, M., 263

Young, W. O., 171, 225

Z

Zacherl, W. A., 107
Zwemer, T. J., 298

PREPARATION OF MANUSCRIPTS FOR THE JOURNAL OF DENTISTRY FOR CHILDREN

Exclusive Publication: Articles are accepted for publication on condition that they are contributed solely to this Journal. Publication elsewhere may be subsequently authorized at the discretion of the Editor.

Correspondence: Address all correspondence relating to publication of scientific papers to the Assistant Editor, Jane W. Teuscher.

Manuscript: Type double spaced, on white paper, 8½ x 11, with one-inch margins at the top, bottom, and right, and 1½ inches on the left. Submit the original. Call drugs by their generic names. The trade names can be added, in parentheses, if they are considered important. Keep one copy of the paper.

Footnotes and References: Use the style of the *Index to Dental Literature* published by the American Dental Association, which requires, in the order given: name of author, title of article, name of periodical, with volume, pages, month—day of month if weekly—and year as follows:

1. JONES, JOHN E.: Silicate Cements, J. Dent. Child., 21:79-93, January, 1966.

Include only those references specifically referred to in the text.

Reprints: An order slip for reprints with a table showing costs will be sent with the galleys proof to each contributor.

Illustrations: A reasonable number of illustrations are allowed without cost to the author. Place the name of the author on the back of each illustration, table, etc. Submit clear and distinct, glossy photographs. Make drawings in black ink on white paper. Attach a slip of paper to the bottom of the illustration with the author's name, identification of article, and appropriate legend. Identify the top of the illustration. Photographs and drawings will be returned if so requested.

Under ordinary circumstances articles are scheduled several months in advance. Notice will be given the contributor when the article has been accepted and again before publication.
